## Call for Papers

**Special Session: Cyber Security and Malware protection**

**Session Chair:** Dr Vikas Jain, Rajiv Academy for Technology & Management, Mathura

**E-mail:** jainvikas24@yahoo.com

**Mobile:** 9319382789

## Details of Proposed Session

Cyber security is the protection of internet-connected systems, including hardware, software and data, from cyber attacks.

In a computing context, security comprises cyber security and physical security -- both are used by enterprises to protect against unauthorized access to data centers and other computerized systems. Information security, which is designed to maintain the confidentiality, integrity and availability of data, is a subset of cyber security.

**This special session presents original research and technological development for addressing real and complex issues related to society and technology.**

**A research area for this special session includes but not limited to:**

- Network security
- Application security
- Information security
- Operational security
- Disaster recovery and business continuity
- End-user education
